

Group Supervision Taster

A supportive space to think more deeply about your coaching practice

A small, reflective space for coaches to think through your coaching edges and dilemmas with the support of a supervisor and alongside peers.

What we'll do in the session

We'll work with real coaching situations that each member of the group brings – exploring what's going on for you as a coach and sharing ideas you can take forward.

The session will be structured, facilitated and conversational. You'll benefit both from working with me as a qualified supervisor, and learning from your peers in the group.

You'll leave with greater clarity, fresh perspectives, and practical insights you can apply in your coaching.

"In my supervision with Natalie, she listened with patience and keen perception, guiding me toward clarity and deeper learning. She notices patterns with ease and is steeped in coaching methods and ethics, which shape her presence and questions."

Becca, Leadership & Team Coach
